Congressman Ezell,

I am writing today in support of Jones College federal appropriations request for the Napier School of Design & Building Arts.

The City of Laurel believes this project would increase our local and state construction workforce, and be a great investment of any federal funding amount awarded to Jones College. JCJC has proven itself over the years to be good stewards of taxpayer dollars, and to successfully implement various programs that its campus offers for our community's students. Jones County, the City of Laurel, and the State of Mississippi would benefit immensely from this school of design and further recruitment of students to JCJC.

I respectfully ask that Jones College's request receive full and adequate consideration, compliant with all federal law and U.S. House Appropriations Committee guidelines, from you and your staff.

If I can be of service to you, or provide any further information – please do not hesitate to contact my office.

Yours very truly,

Johnny Magee, Mayor
